

## **Graham Lees (71-78)**

Died 2 October 2008

Graham Lees, Managing Director of Cotswold Lifts died on the final days of his John O' Groats to Lands End charity cycle ride to raise funds for the Warwickshire & Northamptonshire Air Ambulance.

With many years experience in the lift industry and with a First degree in Mechanical Engineering and a Masters degree in Lift Engineering he will be sorely missed by family, friends and colleagues. Not least for his irreverent sense of humour.

His interests were many – including flying, motor biking and raising money for charity – he was very proud to have raised £10,000 in 2006 For Breast Cancer Care a cause very close to home. He leaves a widow and two teenage children.
